**2012 First Place AJN Book of the Year Award Winner in Nursing Research!**

This is a resource for success and should be a part of any researcher's library."--**Doody's Medical Reviews**

This book is a practical, user-friendly guide for health care researchers across multiple disciplines who are involved in intervention research. It provides all of the essential elements needed for understanding how to design, conduct, analyze, and fund intervention studies that are replicable and can withstand the scrutiny of the Institutional Review Board and peer review. Developed from an annual continuing education workshop on intervention studies conducted by Dr. Melnyk, this text is the most comprehensive body of information available on this topic.

Contributors address the design of interventions that are ethically considerate and sensitive to culture, race/ethnicity, and gender, minimizing threats to external and internal validity, measurement, and budgeting. The guide explores such implementation issues as subject recruitment and retention, data management, and specialized settings, cost analysis, and explaining intervention effects. The text also guides readers in writing grant applications that fund , and addresses how to move intervention study findings into the real world. A unique addition to the book is the availability of digital examples of progress reports, final reports, and research grant applications that have received funding from the National Institutes of Health and other relevant organizations. This text is a valuable resource for all health care professionals conducting research and for doctoral students in health care studies.

### **Key Features:**

- Presents the essential tools for designing, conducting, analyzing, and funding intervention studies
- Designed for use by health care professionals conducting intervention research

- Provides comprehensive, accessible guidelines for doctoral students across all health care disciplines
- Instructs readers on writing grant applications that fund
- Includes digital examples of funded research grants, progress reports, and final reports

### About the Author

Bernadette Mazurek Melnyk, PhD, RN, CPNP/PMHNP, FNAP, FAAN, is Dean and Professor, College of Nursing and Health Innovation, Arizona State University. Dr. Melnyk is an internationally recognized expert in evidence-based practice, intervention research and child and adolescent mental health. Her accomplishments include over 11 million dollars of sponsored funding from federal agencies as principal investigator and over 150 publications. She is co-editor of the well known book, Evidence-based Practice in Nursing & Healthcare: A Guide to Best Practice and the KySS Guide for Child and Adolescent Mental Health Screening, Early Intervention and Health Promotion. She is a frequent keynote speaker at national and international conferences and has consulted with health care systems throughout the globe on how to implement and sustain evidence-based practice. Dr. Melnyk is an elected fellow of the American Academy of Nursing and the National Academies of Practice, and currently serves as one of only two nurse practitioners on the United States Preventive Services Task Force. She also serves as co-editor of Worldviews on Evidence-based Nursing and is founder and chair of the National Association of Pediatric Nurse Practitioners' KySS Program, a national initiative to promote the mental health of children and teens. Dr. Melnyk has received numerous national and international awards, including the Audrey Hepburn Award

from Sigma Theta Tau International and the Jessie Scott Award from the American Nurses Association for the improvement of healthcare quality through the integration of research, education and practice. She has been recognized twice as an Edge Runner by the American Academy of Nursing. ||Dianne Morrison-Beedy, PhD, RN, WHNP, FNAP, FAANP, FAAN is Dean of the University of South Florida College of Nursing and Senior Associate Vice President of USF Health Systems.

## **Users Review**

### **From reader reviews:**

#### **Gregory Mackenzie:**

The book Intervention Research: Designing, Conducting, Analyzing, and Funding can give more knowledge and information about everything you want. Exactly why must we leave the good thing like a book Intervention Research: Designing, Conducting, Analyzing, and Funding? A number of you have a different opinion about guide. But one aim that will book can give many facts for us. It is absolutely appropriate. Right now, try to closer with your book. Knowledge or data that you take for that, you can give for each other; it is possible to share all of these. Book Intervention Research: Designing, Conducting, Analyzing, and Funding has simple shape however, you know: it has great and massive function for you. You can search the enormous world by open and read a reserve. So it is very wonderful.

#### **Anne Bonk:**

Playing with family in a park, coming to see the sea world or hanging out with good friends is thing that usually you could have done when you have spare time, in that case why you don't try issue that really opposite from that. A single activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of information. Even you love Intervention Research: Designing, Conducting, Analyzing, and Funding, you could enjoy both. It is good combination right, you still want to miss it? What kind of hang type is it? Oh occur its mind hangout folks. What? Still don't understand it, oh come on its called reading friends.

#### **William Hickman:**

This Intervention Research: Designing, Conducting, Analyzing, and Funding is great guide for you because the content and that is full of information for you who have always deal with world and have to make decision every minute. This specific book reveal it data accurately using great coordinate word or we can say no rambling sentences included. So if you are read the idea hurriedly you can have whole facts in it. Doesn't mean it only provides you with straight forward sentences but tough core information with lovely delivering sentences. Having Intervention Research: Designing, Conducting, Analyzing, and Funding in your hand like having the world in your arm, facts in it is not ridiculous one. We can say that no guide that offer you world throughout ten or fifteen tiny right but this e-book already do that. So , this can be good reading book. Hey Mr. and Mrs. active do you still doubt in which?

**Thomas Morgan:**

Reading a book to get new life style in this calendar year; every people loves to read a book. When you learn a book you can get a wide range of benefit. When you read books, you can improve your knowledge, because book has a lot of information into it. The information that you will get depend on what forms of book that you have read. If you wish to get information about your research, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, this kind of us novel, comics, as well as soon. The Intervention Research: Designing, Conducting, Analyzing, and Funding provide you with new experience in reading a book.
