### Editorial Review

#### About the Author

Gary B. Shelly wrote and published his first computer education textbook in 1969. More than twenty million copies of Shelly Cashman Series' textbooks have been sold. Gary and a talented group of contributing authors have produced books on computer programming, computer concepts, and application software that are the leading textbooks in the computer technology market today. Gary has hosted the annual Shelly Cashman Institute, a week-long training event focusing on the latest topics in technology, for the past 34 years.

Thomas J. Cashman received his education at California State University, Los Angeles. He established one of the first business data processing programs in the U.S. at Long Beach City College in California, where he taught and served as department head. In 1969, he began collaborating with now best-selling author, Gary Shelly.

Joy L. Starks is a Professor of Computer and Information Technology at Indiana University Purdue University Indianapolis. She has written chapters in several of the Shelly Cashman Series Office books and authored the Photoshop, Java Programming, and Microsoft Publisher series of books. As well as speaking engagements, she also hosts the nationally-renowned Tech Camp for Teachers on the IUPUI campus each summer.

Michael L. Mick is an associate professor in the Information Systems department at Purdue University Calumet. He has authored or co-authored several textbooks for the Shelly Cashman Series, including the Java Programming series of books and Microsoft FrontPage 2002.

### Users Review

#### From reader reviews:

##### Jimmy Dietz:

In this 21st centuries, people become competitive in every way. By being competitive currently, people have do something to make these individuals survives, being in the middle of the actual crowded place and notice by means of surrounding.
