## **EDITORIAL REVIEW**

Diane Dweller's book *Mom Mania and Me* is an account of her life coping with her mother Dixie. Her book is a magnificent achievement even for such an accomplished author.

Growing up in Texas with a doctor father and nurse mother, Diane recounts the story of great survival against the odds.

Dixie was the unstoppable ever-on-the-go-party planner and organizer, high in mania from a bipolar illness. She is organizing everyone, shopping incessantly, buying cars and speeding everywhere. Diane recounts with passion her mother's absurd antics which take a huge toll on family and friends. Diane seeks and finds ways to escape the trauma of Dixie's 'Scary Mom' outbursts of physical and emotional abuse.

From a traumatic, devastating, roller coaster ride of a life, Diane manages to gain

greater understanding about her mother. She develops survival behaviors and discovers significant insights into managing her mother. With greater self-esteem and confidence she overcomes fears and her burden of pain. By sheer determination and courage Diane has triumphed over her highly critical mother who was rarely medication compliant. Diane shares several gems of wisdom.

Diane's experience highlights significant ways in managing a parent with mental illness.

Wonderfully written, Diane's compelling account of her childhood struggle with her moms' mania/bipolar illness is highly recommended. Anyone managing a parent with a mental illness and all those who know someone experiencing mental illness will appreciate the insights Diane shares with us in 'Mom, Mania, and Me.'

Professionals in the fields of Mental Health, Justice, Family Welfare and Family Violence must read this book.
