Theorizing a New Agenda for Architecture:: An Anthology of Architectural Theory 1965 - 1995 By Kate ed. Nesbitt

Theorizing a New Agenda for Architecture: An Anthology of Architectural Theory collects in a single volume the most significant essays on architectural theory of the last thirty years.

A dynamic period of reexamination of the discipline, the postmodern era produced widely divergent and radical viewpoints on issues of making, meaning, history, and the city. Among the paradigms presented are architectural postmodernism, phenomenology, semiotics, poststructuralism, deconstruction, and feminism.

By gathering these influential articles from a vast array of books and journals into a comprehensive anthology, Kate Nesbitt has created a resource of great value. Indispensable to professors and students of architecture and architectural theory, *Theorizing a New Agenda* also serves practitioners and the general public, as Nesbitt provides an overview, a thematic structure, and a critical introduction to each essay.

The list of authors in *Theorizing a New Agenda* reads like a "Who's Who" of contemporary architectural thought: Tadao Ando, Giulio Carlo Argan, Alan Colquhoun, Jacques Derrida, Peter Eisenman, Marco Frascari, Kenneth Frampton, Diane Ghirardo, Vittorio Gregotti, Karsten Harries, Rem Koolhaas, Christian Norberg-Schulz, Aldo Rossi, Colin Rowe, Thomas Schumacher, Ignasi de Sol-Morales Rubi, Bernard Tschumi, Robert Venturi and Denise Scott Brown, and Anthony Vidler. A bibliography and notes on all the contributors are also included.
