**From Book 1:** Adair Radcliffe is only a child when her family perishes in the War of the Roses, so her real father, the womanizing King Edward IV, takes her in, honoring his promise to her mother. Once Adair turns sixteen, the king marries her off without her knowledge - and to her later outrage - in a wedding by proxy. But when tragedy leaves her a widow twice over, Adair realizes that her already tenuous social position has sunk even lower. Now, all she can do is hope that the Scottish laird to whom she is sold will have mercy on her. But little does master or servant suspect that love knows no rank.
