Editorial Review

Review

"This is *the* standard, modestly priced, single-volume reference work for its esoteric fields. Essential stock in all libraries, at all levels; an invaluable text book for teacher and student; and another huge achievement for its distinguished progenitor!" (*Reference Review*, November 2009)

Review

"Much more than a dictionary, this impressive work of judicious scholarship is virtually a course of instruction in the wide range of studies of language. It cannot fail to be of great value to professionals, students, and the general interested public."

—**Noam Chomsky**, Massachusetts Institute of Technology
