Sexual Energy Transmutation: the secret path to Health, Wealth and Genius By Jay Onwukwe

An intense desire for physical sexual contact, just like any other intense and passionate desire, is potent creative energy seeking expression or outlet.

That self-same creative potency projecting as tumultuous sex drive or sexual energy can become Intellectual energy, Money energy, Political energy, Professional energy, Sports energy, Spiritual energy, or whatever type of energy you need at any point in time.

Indeed, the creative powers of sex transcend procreation. Unfortunately, many men being unaware unknowingly dissipate, and thus fail to avail themselves of the innate superlative powers of their abundant sex drive; and this is one primary cause of mediocrity.

Sex, the carnal root of Man's generation, can be the source of his degeneration, yet holds the key to his regeneration. When properly harnessed, the primordial powers of sex and its creative essences that initiate all earthly existence can be used to achieve anything you want. This book tells you exactly how.

Editorial Review

Review

"Sex energy transmutation, arcane spiritual wisdom of the East, is not new. Napoleon Hill devoted chapter 10 of *Think And Grow Rich* to it. But its *how* and *why* has been elusive. This author has pieced the missing links together to present the topic in a simple easy format anyone can use, enjoy and benefit from." ...Ritchie Felix, Abuja.

"Educative, Thought provoking, and with a large dose of inspirational stuff. The specially selected boxed quotations, the author's persuasive discourse and his crisp and clear writing style make this book an extremely enjoyable read. I sincerely recommend it." *Dr. Chidi Lala*.

... "The truth is, I am about to be 41 and I have practiced the opposite of what this book preaches up to this point in my life, regretfully so, to my own detriment. I literally cry for the decades I've wasted. I wish I knew this stuff 20 or 30 years ago.... I know it to be true."

"**Excellent.** Direct message (minimize sex/masturbation/ejaculations) with minimal spirituality (fluff). Dire (negative) consequences of ejaculation are outlined. Semen retention benefits are stated clearly - no ambiguity. Message is clear: no sex (semen retention) means more productive life (better energy, IQ, brain, mental clarity, job competitiveness, especially in our age) while sex means average, insipid, vapid life, bordering on ruin. I would appreciate author continue in this genre - concise, clear and low price".
