Editorial Review

Review

The book serves as a great way to introduce male and female body parts for anyone not used to discussing or naming them.

—School Library Journal (starred review)

Harris' tone is cheerful and confident... Westcott's bright digital illustrations keep the affair as breezy and non-shocking as possible -- just as it should be. Expect the usual outcry, as well as the usual demand.

—Booklist (starred review)

This much-needed title stands out for its comfortably familiar presentation of material adults sometime find difficult to share with young children.
