

Controversial Science: From Content to Contention (Sunny Series In Science, Technology, and Society)

By Thomas Brante, Steve Fuller

Controversial Science: From Content to Contention (Sunny Series in Science, Technology, and Society) By Thomas Brante, Steve Fuller

This book represents emerging alternative perspectives to the 'constructivist' orthodoxy that currently dominates the field of science and technology studies. Various contributions from distinguished Americans and Europeans in the field, provide arguments and evidence that it is not enough simply to say that science is 'socially situated.' Controversial Science focuses on important political, ethical, and broadly normative considerations that have yet to be given their due, but which point to a more realistic and critical perspective on science policy.
