League of Legends: The Ultimate League of Legends "How to Support" Blueprint - Master Your Role, Carry Your Team to Victory, Get 30 Points Per Game, and ... League of Legends & Win More Games Book 5) From Michael Gladon

You're about to discover proven tips and strategies on how to get better as a Support player in the bot lane in League of Legends. If you read this book and apply the basic to advanced strategies it provides, you will see hyper improvement in your game play, carry your team, win more games and gain ranks faster!

I am a Diamond I player and having spend hundreds of hours playing League of Legends, interviewing pro players and studying the game, I've written this book containing the top tips for you to improve as a support.

Since 80% of the LoL community are in Gold to Bronze Elo, this book is meant for SERIOUS players ONLY who want to drastically improve their mechanics and winrate to gain ranks fast, this book is not for bronze players who "play casually" and pick AD Teemo support.

A good support can carry the game hard if he knows when to use his abilities and why. There have been many games I've played games on Janna where my shields, slows, ultimate and Tornadoes saved my team mates and CC'd enemies to get back in the game and win. Or on Alistar, getting a Flash Pulverize of on 3 key members of the enemy team, headbutting the 12-1 top laner out of the fight, soaking enough damage so my team could sweep theirs, take baron and win the game. This is just a sweet taste of what you will be able to do after reading this book. You might be thinking, I already do those things but still lose a lot of games. It is all about timing and using the right spells and abilities at the right moment and having a good communication with you team.

Here Is A Preview Of What You'll Learn:
