

# Maxillofacial Rehabilitation: Prosthodontic and Surgical Management of Cancer-Related, Acquired, and Congenital Defects of the Head and Neck (Amg All Music Guide)

By Dr John Beumer III, Mark T. Marunick, Salvatore J. Esposito

**Maxillofacial Rehabilitation: Prosthodontic and Surgical Management of Cancer-Related, Acquired, and Congenital Defects of the Head and Neck (Amg All Music Guide)** By Dr John Beumer III, Mark T. Marunick, Salvatore J. Esposito

The rehabilitation of patients with disabilities of the head and neck secondary to acquired and congenital defects continues to be a challenge. Today it is possible to restore most patients to nearly normal form and function, enabling them to lead useful and productive lives. However, successful outcomes require close interaction among many health care disciplines. Given the recent advances in maxillofacial prosthetics and reconstructive surgery, the pace of change in the rehabilitation of oral and facial defects has been far too slow. For example, free tissue transfers have been used throughout the world for the last 20 years to restore bony defects of the mandible, but far too many surgeons fail to understand that it is equally important to restore the bulk and contour of the tongue if the oral functions of speech, mastication, and control of saliva are to be restored. This updated edition with an emphasis on a truly multidisciplinary approach provides the reader with insights into the latest developments in maxillofacial prosthetics, reconstructive surgery, and dental care. New chapters present information on digital technology and tissue engineering, and all chapters have undergone significant revision, reflecting the advances in the use of osseointegrated implants and free vascularized flaps. The reader will take away practical knowledge of state-of-the-art treatment approaches to ensure that patients of the future will no longer assert that the cure was worse than the disease. Contents

1. Oral Management of Patients Treated with Radiation Therapy and/or Chemoradiation J. Beumer III, E. Sung, R. Kagan, K. Lyons, H. Gulbransen, B. Venkatachalam, N. Ghaem-Maghami
2. Rehabilitation of Tongue and Mandibular Defects J. Beumer III, M. Marunick, S. Silverman Jr, N. Garrett, J. Rieger, E. Abemayor, R. Penn, V. Nabili, R. Rezaee, D. Curtis, A. Hannam, R. Nelson, E. Roumanas, E. Freymiller, B. Markowitz
3. Rehabilitation of Maxillary Defects J. Beumer III, M. Marunick, N. Garrett, D. Rohner, H. Reintsema, E. Abemayor, R. Penn, V. Nabili, P. Bucher
4. Rehabilitation of Soft Palate Defects S. Esposito, J. Rieger, J. Beumer III
5. Rehabilitation of Facial Defects J. Beumer III, D. Reisberg, M. Marunick, J.

- Powers, S. Kiat-amnuay, R. van Oort, Y. Zhao, G. Wu, L. Eversole, H. Cherrick, E. Roumanas, D. Pedroche, T. Baba, J. de Cubber, P. Moy, W. Noorda, G. van Dijk
6. Rehabilitation of Cleft Lip and Palate and Other Craniofacial Anomalies A. Sharma, T. Chang, L. Brecht, L. Kaban, K. Vergervik
7. Digital Technology in Maxillofacial Rehabilitation J. Wolfaardt, B. King, R. Bibb, H. Verdonck, J. de Cubber, C. Sensen, J. Soh
8. Tissue Engineering of Maxillofacial Tissues M. Lee, B. Wu
9. Psychosocial Perspectives on the Care of Head and Neck Cancer Patients D. Rapkin, N. Garrett
10. Oral Management of Chemotherapy Patients E. Chung, E. Sung

## **Editorial Review**

### **Review**

This is a very good comprehensive text to have as a reference and has many excellent contributions from many well-known authors. The text can serve any dentist who might see a patient who has had or will have treatment with chemotherapy and radiation therapy and/or has a maxillary or mandibular defect that requires restoration and maintenance. --Robert Schneider, DDS, MS, FACP, - Special Care in Dentistry, May/June 2012

This is a beautifully constructed textbook from start to finish which presents a range of techniques in an accessible and informative manner. A valuable source of referral for anyone involved in maxillofacial rehabilitation, it certainly helps somewhat to diffuse the infamous phrase "the cure was worse than the disease". --D. Brierley, - British Dental Journal, April 2012

This is one of the rare textbooks that I think should be used in the part of the formal educational curriculum (predoctoral, postdoctoral, and continuing) on the dental and surgical management of maxillofacial defects, particularly the section on the irradiated oncology patient. The book is of sufficient importance that readers should be willing to purchase a personal copy, and it should certainly be present in all dental and medical libraries. --Michael D. Turner, DDS, MD, FACS, - Journal of Dental Education, June 2012

## **Users Review**

### **From reader reviews:**

#### **Evelyn Blow:**

This Maxillofacial Rehabilitation: Prosthodontic and Surgical Management of Cancer-Related, Acquired, and Congenital Defects of the Head and Neck (Amg All Music Guide) book is absolutely not ordinary book, you have after that it the world is in your hands. The benefit you will get by reading this book is usually information inside this e-book incredible fresh, you will get facts which is getting deeper anyone read a lot of information you will get. This kind of Maxillofacial Rehabilitation: Prosthodontic and Surgical Management of Cancer-Related, Acquired, and Congenital Defects of the Head and Neck (Amg All Music Guide) without we comprehend teach the one who reading it become critical in pondering and analyzing. Don't always be worry Maxillofacial Rehabilitation: Prosthodontic and Surgical Management of Cancer-Related, Acquired, and Congenital Defects of the Head and Neck (Amg All Music Guide) can bring if you are and not make your case space or bookshelves' turn into full because you can have it in the lovely laptop even mobile phone. This Maxillofacial Rehabilitation: Prosthodontic and Surgical Management of Cancer-Related, Acquired, and Congenital Defects of the Head and Neck (Amg All Music Guide) having very good arrangement in word in addition to layout, so you will not experience uninterested in reading.

#### **Freddie Hoops:**

This book untitled Maxillofacial Rehabilitation: Prosthodontic and Surgical Management of Cancer-Related, Acquired, and Congenital Defects of the Head and Neck (Amg All Music Guide) to be one of several books

that best seller in this year, this is because when you read this publication you can get a lot of benefit in it. You will easily to buy this particular book in the book retail store or you can order it by using online. The publisher in this book sells the e-book too. It makes you quickly to read this book, as you can read this book in your Mobile phone. So there is no reason to you to past this reserve from your list.

**Rose Miller:**

Playing with family inside a park, coming to see the water world or hanging out with friends is thing that usually you could have done when you have spare time, and then why you don't try matter that really opposite from that. One activity that make you not sense tired but still relaxing, trilling like on roller coaster you already been ride on and with addition info. Even you love Maxillofacial Rehabilitation: Prosthodontic and Surgical Management of Cancer-Related, Acquired, and Congenital Defects of the Head and Neck (Amg All Music Guide), you could enjoy both. It is very good combination right, you still need to miss it? What kind of hangout type is it? Oh occur its mind hangout people. What? Still don't get it, oh come on its named reading friends.

**Tony Partee:**
