America's Secret War: Inside the Hidden Worldwide Struggle Between America and Its Enemies By George Friedman

George Friedman delivers the geopolitical story that the mainstream media has been unable to uncover — the startling truth behind America's foreign policy and war effort in Afghanistan, Iraq, and beyond.

Friedman, founder of Stratfor, one of the world's most respected private global intelligence firms, and Geopolitical Futures, has an unmatched ability to provide clear perspective on the current geopolitical map. In *America's Secret War*, George Friedman identifies the United States' most dangerous enemies, delves into presidential strategies of the last quarter century, and reveals the real reasons behind the attack of 9/11—and the Bush administration's motivation for the war in Iraq. It describes in eye-opening detail America's covert and overt efforts in the global war against terrorism: Not only are U.S. armies in combat on every continent, but since 9/11 the intelligence services of dozens of nations have been operating in close partnership with the CIA.

Drawing on his vast information-gathering network, Friedman presents an insightful picture of today's world that goes far beyond what is reported on television and in other news media.

Al Qaeda's war plans and how they led to 9/11

The threat of a suitcase nuclear bomb in New York and how that changed the course of the war.

The deal the U.S. made with Russia and Iran which made the invasion of Afghanistan possible – and how those deals affect the United States today.

How fear and suspicion of the Saudis after 9-11 tore apart the Bush-Saudi relationship and why Saudi Arabia's closest friends in the administration became the Saudi's worst enemies.

The real reasons behind George W. Bush's invasion of Iraq and how WMD became the cover for a much deeper game.

How the CIA miscalculated about Saddam Hussein's and Iran's real plans, leaving the U.S. bogged down in the war.

How the war in Iraq began with a ruse, pretending that a "target of opportunity" attack on Saddam Hussein had presented itself.

The real story about why the U.S. raises and lowers its alert status and why the United States can't find and destroy al Qaeda.

The strategic successes that are slowly leading the United States to victory

America's Secret War is an unprecedented look at the new world war being waged behind-the-scenes today. It is sure to stir debate and capture headlines around the world.

Editorial Review

From Publishers Weekly

As founder and chairman of Stratfor Forecasting ("predictive, insightful global intelligence," its Web site states), Friedman is in the business of gathering information and predicting outcomes of global conflicts for businesses and governments. Following up on *The Future of War*, he assesses the causes, players and parameters of what he calls "the fourth global war"—September 11th and its aftermath—from the perspective of the company. Much of what's here will be familiar to readers of the 9/11 report or the reams of news coverage over the last three years. Yet Friedman's stock-taking exercise is compelling as a distillation of corporate intelligence, where the spin is less about maintaining the image of particular politicians or governments, and more about being right so that money can be made.

From [Booklist](#)

Friedman is right when he says that his book may be "vigorously attacked." His (quite reasonable) portrayal of George W. Bush and Osama bin Laden as "skilled and dedicated men" is sure to anger readers looking for easy characterizations. But there is nothing easy about the post-September 11, 2001, world. Any study of the period immediately following the terrorist attacks inevitably raises more questions than it answers. What did the U.S. intelligence community know, and when did they know it? Was there sufficient advance knowledge to permit the U.S. government to defend itself against the attacks? Was President Bush misleading the world when he launched his search for weapons of mass destruction? And how, exactly, has Osama bin Laden managed to escape? Friedman answers what he can, suggests explanations for things that are murky, and gives us fistfuls of new ideas to consider. This isn't the definitive book on the subject, but it delivers a clearer, deeper, and subtler understanding of the post-9/11 world than we will ever get from listening to the cacophony of talking heads on television. *David Pitt*

Review

Acclaim for George Friedman and STRATFOR

"Stratfor was miles ahead of CNN and all the other media.... A private quasi-CIA, Stratfor has enjoyed an increasing vogue in recent years as a result of the heady forecasts and many news breaks.... The web site has a huge underground following, dating back to the 1999 Kosovo War."

--Barron's

"Stratfor moved the financial markets all by itself when it reported that a Russian envoy was en route to Baghdad to negotiate peace with the Iraqis.... There is a temptation, when you are around George Friedman, to treat him like a Magic 8 Ball."

--The New York Times Magazine

"Predictions have made George Friedman a hot property these days."

--The Wall Street Journal

"Stratfor is changing the way we think about news."

--The American Spectator

“They fill the appetite for international news and analysis that the newsweeklies once filled. But they do it twice as well as the newsweeklies – and in real time.”

--Lee Smith, Senior Editor, GQ

“The Friedmans: better than the CIA.”

--The Industry Standard

Users Review

From reader reviews:

Manuel Jett:

The book America's Secret War: Inside the Hidden Worldwide Struggle Between America and Its Enemies will bring someone to the new experience of reading any book. The author style to describe the idea is very unique. In case you try to find new book you just read, this book very appropriate to you.
