- How using your imagination to bring boring information to life can help you *dramatically improve your attention span and recall*
- An incredible strategy for remembering numbers (the same system Kevin used to remember Pi to 10,000 digits and beat the world memory record by 14 minutes)
- How to use a mental map to **lock in and connect hundreds or even thousands of ideas in your long-term memory** (this method will allow you to become a leading expert in your field faster than you ever dreamed possible)
