

Teach Your 3-7 Year Old Math

By Mr. John Bowman

Teach Your 3-7 Year Old Math By Mr. John Bowman

In this eBook, an experienced Montessori teacher shows parents how to use a clear sequence of activities to teach their 3-5 year old children about mathematics, or to help their 6-7 year olds who are struggling with math to succeed. Most activities use common items, and recommendations are also given for affordable math learning materials. A link is included to a free collection of math printables for use with many of the activities.. Ideas on helping children learn are followed by activities to develop pre-math skills, and then amounts and numerals into the thousands, the Decimal System, operations with numbers, fractions, solid and plane geometric shapes, and many activities for using math skills in everyday life. Most children naturally develop an increased interest in numbers and language at around 3-5 years of age. This book shows you how to make the most of this sensitive period to give your child a firm foundation of math skills, and a positive, confident attitude toward number work that will carry on throughout the school years. There is no need for children to dislike math! Starting early with these fun, simple activities, you can send your child to kindergarten or first grade already doing math at a second to fourth grade level, setting the stage for early and continued success. If your child is having problems with math in kindergarten through second grade, these activities can save the day and turn math from a struggle to success!

Editorial Review

About the Author

John Bowman's most rewarding career was spent as a Montessori preschool Teacher and Director. He started three new Montessori schools for 3-6 year olds, and was the first Director of the Garfield Montessori School in Denver, CO. His goals now are to encourage parents to do early learning activities with their children and to show them how.

Users Review

From reader reviews:

Lizzie Chandler:

The book Teach Your 3-7 Year Old Math can give more knowledge and also the precise product information about everything you want. Exactly why must we leave a very important thing like a book Teach Your 3-7 Year Old Math? Several of you have a different opinion about reserve. But one aim in which book can give many facts for us. It is absolutely correct. Right now, try to closer along with your book. Knowledge or details that you take for that, you are able to give for each other; you are able to share all of these. Book Teach Your 3-7 Year Old Math has simple shape nevertheless, you know: it has great and massive function for you. You can look the enormous world by wide open and read a reserve. So it is very wonderful.

Timothy McKinney:

What do you with regards to book? It is not important to you? Or just adding material if you want something to explain what the ones you have problem? How about your free time? Or are you busy person? If you don't have spare time to accomplish others business, it is give you a sense of feeling bored faster. And you have time? What did you do? Every individual has many questions above. They have to answer that question since just their can do that. It said that about publication. Book is familiar in each person. Yes, it is correct. Because start from on guardería until university need this Teach Your 3-7 Year Old Math to read.

Carlos Terrill:

Reading a book tends to be new life style within this era globalization. With examining you can get a lot of information that could give you benefit in your life. With book everyone in this world can easily share their idea. Textbooks can also inspire a lot of people. Lots of author can inspire their very own reader with their story or maybe their experience. Not only the storyline that share in the publications. But also they write about the data about something that you need case in point. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book which exist now. The authors on this planet always try to improve their ability in writing, they also doing some research before they write for their book. One of them is this Teach Your 3-7 Year Old Math.

Josefina Smith:

As a student exactly feel bored for you to reading. If their teacher inquired them to go to the library in order to make summary for some reserve, they are complained. Just very little students that has reading's soul or real their passion. They just do what the professor want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that reading through is not important, boring and can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Teach Your 3-7 Year Old Math can make you experience more interested to read.
